

Pillowed Relief in Black Stone

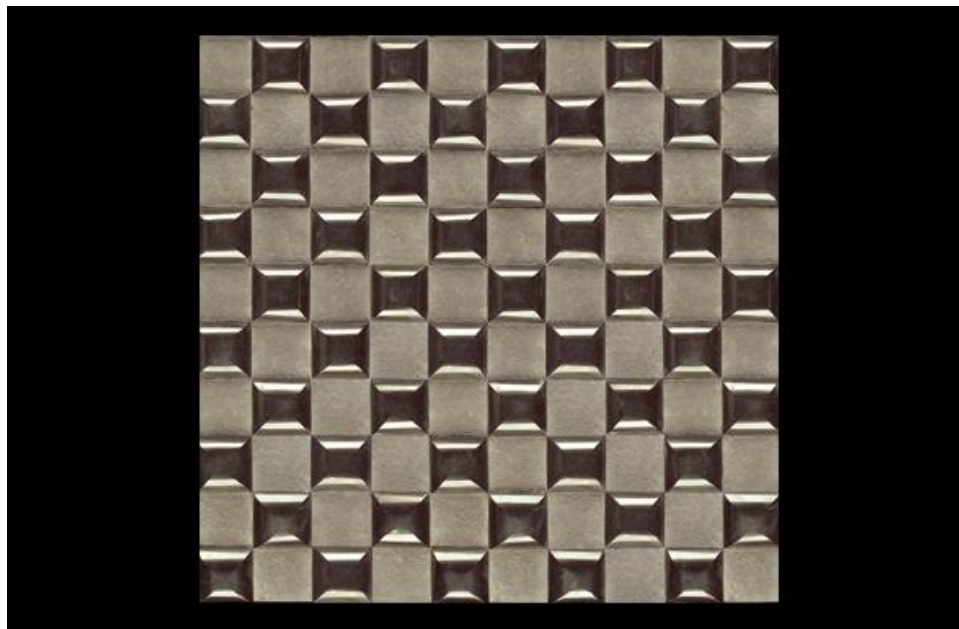

By alternating, in a chequered fashion, polished and textured pieces, a dramatic 3-D effect is created which is highly architectural

Always pushing design boundaries, De Ferranti has taken this simple, yet effective, repeating pattern and translated it into a bas relief stone tile [mosaic](#).

Shown here is our Black limestone.

Our Pillowed Textured stone tiles are made to order, and available in a wide range of different stones and can even be translated into semi-precious stones, [metal](#) or wood.

Other bespoke tiles, mosaics and reliefs are made to special commission in ancient, classical and contemporary designs and finishes.
