

Girasole Cast Brass inlaid Border with Mosaic Micro Pebbles

Created from Sandcast Brass, then expertly inlaid into Beige sandstone with black micro pebble mosaic sunflower seeds

Each Brass segment has been sand cast individually. Not one piece is the same. These cast [copper](#) segments are assembled together before they are set into depression created in the Beige sandstone before the centres are painstakingly filled with micro pebbles (mosaic). We think this modern take on the inlay technique is rather fun. What is unstoppable is the tarnishing of the [metal](#) (brass) which will create a beautiful [patina](#) over time.

Use as a border or create an interesting composition with this unique border.

We can, as with most of the De Ferranti product ranges, combine other materials and substrates to the clients specifications.

**Product Specifications:**

Bespoke: Yes
Length: 30 cm
Other Sizes Available: Yes
Thickness: 2 cm
Width: 10 cm
Finishes: Cast, Custom, Hand
Finished, Handcut, Handmade,
Inlaid, Matte, Polished, Sandcasted

Product Applications:

Also available as mosaics
