

## Ottoman Relief in Sage Stone

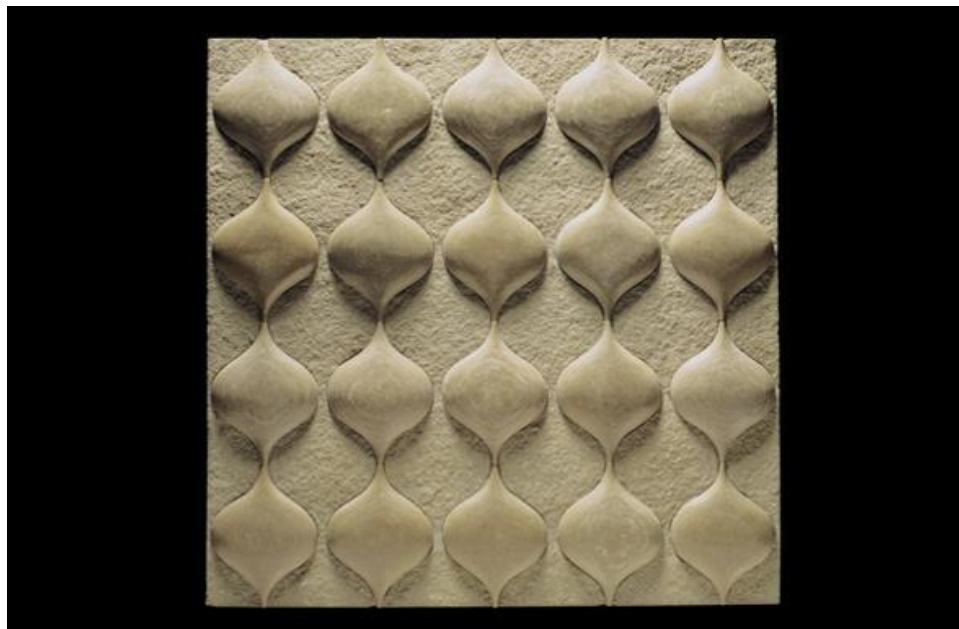

By alternating polished and textured pieces, a dramatic 3-D effect is created which is highly architectural

Always pushing design boundaries, De Ferranti has taken this classical Ottoman repeating pattern and translated it into a bas relief stone mosaic.

Shown here is our prized Sage Stone.

Our Ottoman Relief Textured Tile Mosaics are made to order, and available in a wide range of different stones and can even be translated into semi-precious stones, metal or wood.

Other bespoke tiles, mosaics and reliefs are made to special commission in ancient, classical and contemporary designs and finishes.
